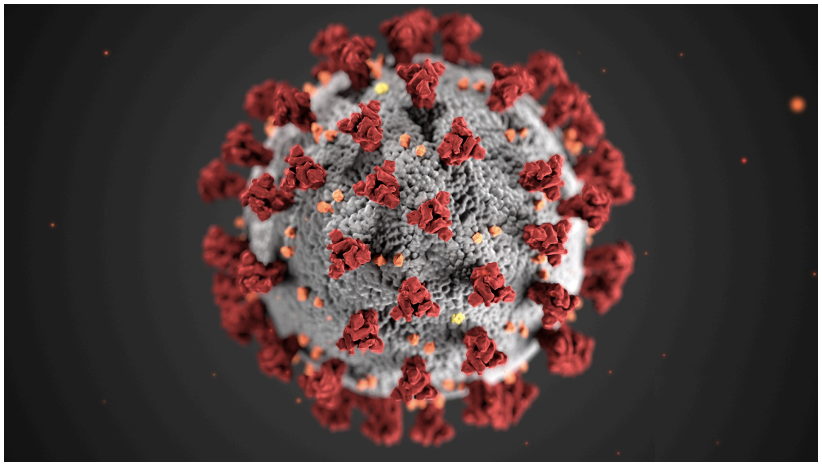
CORONAVIRUS

Why do I have to stay at home?



A social narrative for children

© Autism Little Learners

Sometimes people get sick. Little things called germs make people sick.

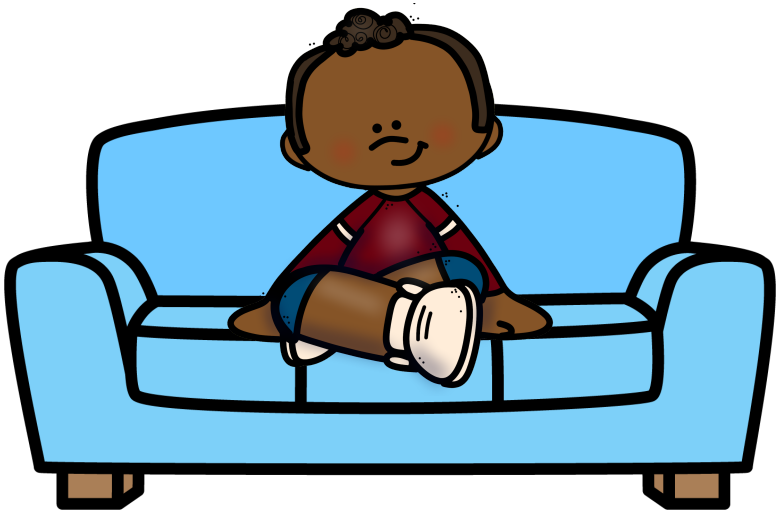
When people get sick, they usually stay home. That way, we don't spread the germs.

© Autism Little Learners

Right now, there are some germs called Coronavirus that are making a lot of people get sick.

It is very important that I stay in my house or my yard right now.

© Autism Little Learners



That way, I won't get sick.

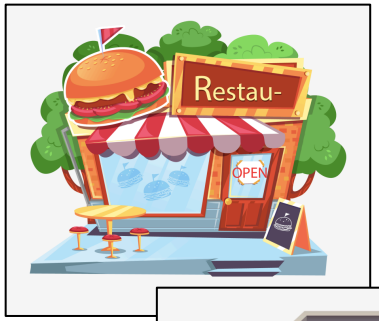
This means that I will not go to restaurants for a little while. I can eat at home for now.

© Autism Little Learners

Also, I will not be going to school or stores right now.

This might make me feel a little sad, but my family will help me find fun things to do at home!

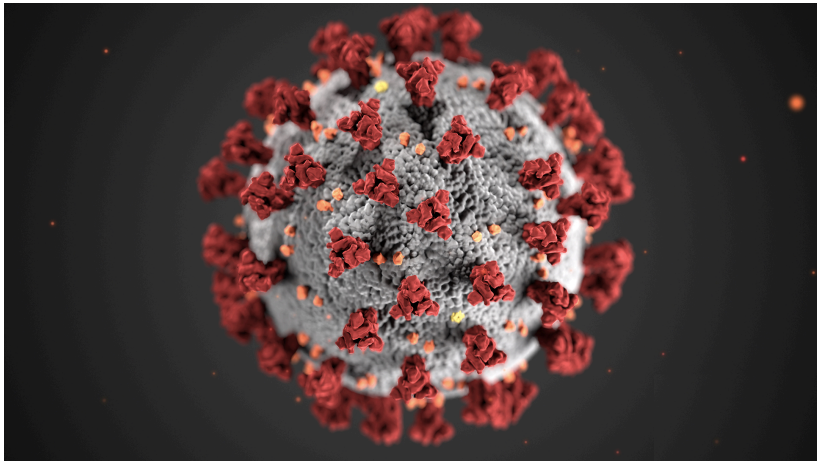
© Autism Little Learners



When the Coronavirus germs are gone, my family will tell me and we can go back to my favorite places again! It will be OKAY!!

Coronavirus

¿Por qué debo quedarme en casa?



Una narrativa social para niños.

© Autism Little Learners

A veces, la gente se enferma.
Pequeñas cosas llamadas
gérmenes enferman a la gente.

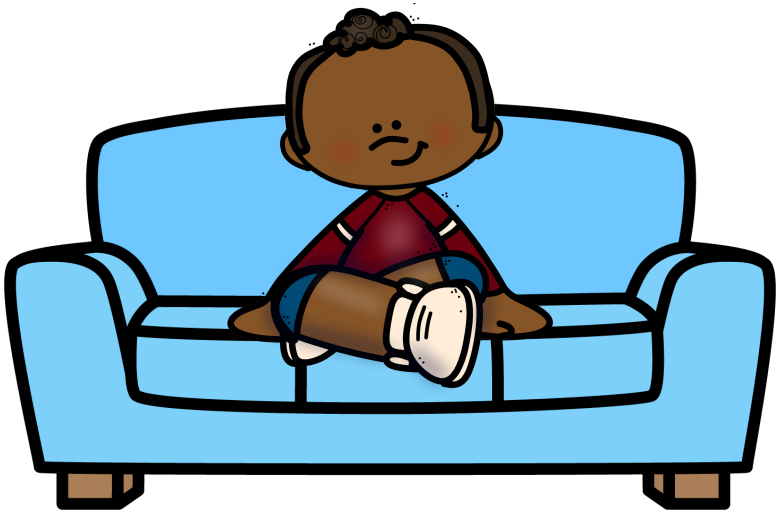
Y cuando la gente se enferma,
debe quedarse en la casa.
De ese modo, no contagia sus
gérmenes a otras personas.

© Autism Little Learners

En este momento, un germen
llamado "Coronavirus" está
enfermando a mucha gente.

Y es muy importante que yo
permanezca en mi casa
o mi patio en este momento.

© Autism Little Learners



De ese modo, no me enfermo.

Esto significa que no iré a restaurantes por un buen rato. Puedo comer en casa!

© Autism Little Learners

También significa que no iré a la escuela, o a tiendas por un buen rato.

Esto quizá me ponga un poco triste, pero mi familia me ayudará a encontrar formas de hacer cosas divertidas en casa!

© Autism Little Learners

Cuando el Coronavirus se haya ido, mi familia me dirá y podremos volver a ir a nuestros lugares favoritos. Todo estará bien!
